[Hollywood is popular for having some crazy fitness transformations. Actors start going to the gym and build muscle, and this leaves fans baffled by how much better they look. One celebrity did quite the opposite. Former WWE wrestler and current actor Dave Bautista lost a considerable amount of muscle and his now "slim"/ In this video, we look at his reasons for doing this, as well as why he did so. So join me as we look into why Dave Bautista lost all his muscle.](#) -----
