[Keto Meal Delivery https://www.trifectanutrition.com/keto-meal-delivery](https://www.trifectanutrition.com/keto-meal-delivery) I'm Greg, cofounder of Trifecta, and I'm here to explain our keto meal delivery service. [If you're trying to eat high protein, ultra-low-carb, and high fat to stay in ketosis or are sensitive to certain ingredients, this is the meal plan for you.](#) Keto diets are known to rapidly burn fat and improve your overall health and even increase your energy levels. The keto diet is based on eating very high protein, very low carbs, and a moderate to high level of fat to put your body into ketosis. It comes with healthy meats like our grass-fed beef, free-range chicken, and sustainably caught seafood. Our chef's choice or customer choice options mean either you pick your own meals or our chefs can pick them for you to make it easier. We deliver on Friday or Saturday each week in a super chilled box with vacuum-sealed trays. These meals are designed to work with our personalized diet program that you can download from the IOS or App Store. So you stick to your plan. So stop spending hours each week going to the grocery store, cooking, cleaning, and doing all the things required for meal prep and order trifecta to make sure you stick to the plan.
