[Fitlife Keto Gummies. How Anant Ambani struggled from weight gain due to steroids from asthma Last updated on Jul 28, 2024](#)

[Anant Ambani, the youngest son of Reliance Industries chairman Mukesh Ambani, is now married to Radhika Merchant. The engagement was a traditional ceremony at the family's Mumbai home Antilia, and several celebrities attended the function. For the unversed, Radhika is the daughter of industrialist Viren Merchant. The families announced Anant and Radhika's relationship in 2019 and on July 12, 2024, they tied the knot. The grand wedding saw several elite leaders and public figures in attendance. In a 2017 interview with TOI, Nita Ambani shared that her son Anant faced significant health challenges due to severe asthma, necessitating prolonged steroid use. Unfortunately, this treatment regimen led to substantial weight gain, exacerbating his condition. Reports indicate that Anant's weight had peaked at approximately 208 kg. The situation underscored the complex interplay between medical treatments and their unintended consequences, highlighting the Ambani family's journey in managing his health challenges and the impact on his overall well-being. â€‹Fever that lasts for more than 24 hours should be taken seriously: Experts suggest amid seasonal infections, feverâ€‹ â€‹When Anant Ambani had lost 108 kilos in 18 months: All about his impressive weight loss transformationâ€‹ â€‹Walking tips: How many steps should you ideally cover in a km?â€‹readmore](#)
