[Kelly Clarkson's Health And Weight Transformation. Kelly Clarkson's weight loss, showcased at the 2024 Grammys, is credited to dietary changes and mental health focus. She follows "The Plant Paradox" diet, emphasizing organic, non-GMO foods for her autoimmune and thyroid issues. Clarkson clarified she didn't use weight loss drugs like Ozempic. "Everybody thinks it's Ozempic, but it's not. It's something else," she said. Therapy has also been crucial to her well-being. Follow us on:](#)
